A B O U T   M E

I have extensive experience crafting Front-end websites and Back-end development. Leveraging my technological background, I've delivered numerous application and website projects tailored to my skill set. My passion for Python technology is evident in the variety of applications I've developed, including a Python-based detection application utilizing machine learning.

I'm confident that my perseverance, hard work ethic, time management skills, precision, and problem-solving abilities can significantly contribute to achieving your company's objectives. I'm excited about the opportunity to collaborate within a dynamic and growth-oriented team and am fully prepared to tackle new career challenges.

E D U C A T I O N

IIB DARMAJAYA
Bachelor's Degree of Informatics Engineering

2019 – 2023
GPA: 3.69/4.00

E X P E R I E N C E
