Rodhi Faisal Mufid

Portfolio Website: https://almufid.vercel.app

Founder, Programmer

SUMMARY

As a programmer specializing in both Back-end and Front-end development, skilled in designing and maintaining responsive systems and applications tailored to client needs. I am genuinely enthusiastic about staying updated on the latest technological developments and consistently strive to improve myself and learn, enabling me to contribute optimally to each project.

I hope to make a significant contribution towards achieving the company's goals and utilize technology as the primary driver for business success. I am committed to enhancing the organization's success through my skills and dedication.
